Advertises Richmond, direct-  
ly increasing property values

# THE RICHMOND TERMINAL

Oldest newspaper in Rich-  
mond; has the confidence  
and support of pioneers.

VOL. XIX

RICHMOND, CALIFORNIA, FRIDAY, AUGUST 11, 1922

No. 32

## County Registration May Exceed 20,000

### Sample Ballots Will Soon Be Mailed to Voters

County Clerk Jasper H. Wells announced today that the sample ballots for the primary election will be in the mails not later than August 19, ten days previous to the election. This is the earliest date permitted by law to mail them. Wells estimated that the complete registration will be approximately 19,000.

### Rapid Growth of Eastbay Cities

The substantial growth of the eastbay cities is indicated in the following figures submitted by L. H. Newbert, division manager of the Pacific Gas and Electric Co.:

**Gas Consumers—**  
July 1, 1922, 98,310; July 1, 1921, 92,756; total gain, 5554.  
**Electric Consumers—**  
July 1, 1922, 82,391; July 1, 1921, 75,320; total gain, 7071.

Which shows a monthly average of 460 new premises connected for gas service and 590 for electricity.

### After Pesky Squirrels

The board of supervisors Monday ordered county horticultural commissioner, V. C. Stevens, to begin the squirrel campaign and exterminate the destructive little animals on eight parcels of land in the county where owners failed to get busy.

### Telephone Service

If you wish to speed up your telephone service, articulate distinctly. Do not slur your words. More than 90 per cent of "wrong number" calls are due to indistinct articulation.

### Ira Vaughn Tells of Big Elks Parade

Ira Vaughn, who recently returned from Atlantic City, where he represented Richmond Lodge No. 1251, B. P. O. E., says the congressional delegation of the big parade at the seaside resort was led by old "Uncle Joe" Carnon. "Uncle Joe" was the honorary grand marshal of the parade which was the concluding feature of the Elks' convention. Theodore Roosevelt made an address, after the parade, from the reviewing stand.

#### HOW SHE CONTROLS HIM

Some light is thrown on the popular question, "How to handle a husband," by the action of one old woman known to a "Listening Post" correspondent.

The venerable woman in question is extremely thin. Her equally venerable husband is extremely stout. The old gentleman's feet are completely out of his sight and reach beneath his south-obliterating equator. By dint of extended practice in locating them by touch he can step into his shoes, but, of course, is unable to lace them, for which service he has to depend upon his domestic partner. And if at any time he gets obstreperous, as husbands sometimes do, the lady effectually corrects him by refusing to lace his shoes.—Portland Oregonian.

**Not Inclined to Explain.**  
The average man is perfectly willing, after he has made a lucky mistake, to have it referred to as "a stroke of genius."

THE TERMINAL, oldest newspaper in Richmond.

### School Term Begins Next Monday in Richmond

The schools of Richmond will open for the fall term next Monday, August 14.

This may be a little early for some of the boys who are in the fruit belt making some extra change, but the big majority will be on hand Monday morning ready for active work after their summer vacations.

Richmond schools have assumed large proportions, and the increase in enrollment will be large this term. There are now more than 3000 in the elementary grades and 700 in the high school.

The teaching staff comprise 107 elementary and 35 high school and junior high school instructors.

### PERSONAL MENTION

Mr. and Mrs. C. H. Everland of Folsom are visiting the T. I. Coles, 1025 Barrett.

Miss Lucille Bowen of Marysville is visiting her uncle and aunt, Mr. and Mrs. J. A. Long, 521 Eleventh street.

Walter Brinkop, candidate for state treasurer, was in town Monday in the interest of his candidacy. "Brink" says he has 54 clubs back of him in the state so far. Pretty fair.

Mrs. George Roberts of El Segundo is the guest of her parents, Judge and Mrs. John Roth.

Frank Gardner, accompanied by his mother and sister, have returned from a tour of southern California.

Miss Edith Sawyer of Los Angeles is a house guest of the Clifton Bradleys at 2360 Ocean avenue.

Mr. and Mrs. Fred B. Axtell and son, George, of Seattle are visiting the Cramers at 1129 Third street.

Joe Vargas of the Eagle Creamery has moved to Tulare, near which place he will try ranching.

Bayard Lang has gone to Los Angeles where he will visit his uncle, and look around at the beaches.

### Venison

Eugene Truax and Tom Moore are giving out large and juicy cuts of venison, having just returned from a successful deer hunt.

### Half Mile Strip of Road to Be Improved

That the half mile strip of unpaved road at the western extremity of the Franklin canyon highway will be paved before the winter rains set in, is guaranteed by an order made by the board of supervisors Monday.

County Surveyor Arnold will submit plans at the Sept. 1 meeting of the board. The paving is to be double slab, the same as the paving in the remainder of the canyon.

### Three Bridges For District No. 2

The board of supervisors Monday authorized three new bridges for district No. 2. Two will be built between Moraga and Lafayette and one in Moore canyon.

### Came Near Beating a Train at Santa Fe Crossing

(Albany Argus)

Stanley A. Hall, 1707 Blake street, Berkeley, had a close call Tuesday noon at the Santa Fe railroad crossing at Marin avenue, when a south-bound train scooped up his automobile and made junk out of it, carrying Hall some distance down the right of way. When Hall was extracted from the debris it was discovered that what was left of him was "still alive and kicking."

He was taken to the emergency hospital and patched up and then sent to the Temple hospital where he will recover, it is said.

Hall is a popular fellow, and well known in fraternal circles. He was driving a delivery machine for the Virginia Cleaning and Dyeing Co. when hit by the train. The machine was a complete wreck, various parts being found on the roofs of houses near by.

### Political Notes

Louis E. Davis, candidate for county assessor, is hitting the high places in his canvas of the county. He is making a clean canvass and making friends wherever he goes. That he is a popular young man and fully competent to fill the position he seeks, is acknowledged by many who have only a slight acquaintance with this young man who would represent the west end.—Dispatch.

When a man or woman holding a public office or trust fills the bill so satisfactory that no aspirant has the heart to get in and compete in a contest for political honors, it is a pretty sure sign that the incumbent cannot be improved upon for ability and integrity. Such a person is Zeb Knott, who represents this the first district as supervisor. Some day the people are going to promote Mr. Knott to a higher and more responsible position. The time for this promotion is nearly due.

### William P. Lawlor For Chief Justice

Judge William P. Lawlor is one of the best known judges in California. He has recently been endorsed by the Civic League of Improvement Clubs of San Francisco by a vote of 192 to 45. He served 16 years on the superior bench of San Francisco. Judge Lawlor is now serving a 12-year term as Associate Justice of the Supreme Court and will soon be the senior member of the court in point of service.

Make no mistake. Vote for Judge Wm. P. Lawlor. He is square, and a loyal friend of the common people. The large majority of votes he has received in former elections proves his worthiness.

It was in THE TERMINAL.

HOPELESSLY OBJECTIONABLE

"I understand you have mosquitoes on your place as big as sparrows."

"It's untrue," replied Farmer Comstock. "They're just ordinary little skeeters. They don't get big enough to be interesting as curiosities."

RIGHT

"How long do you think I should wear my dresses?" asked the flapper of her father.

"About three years," snapped the Old Man.

THE TERMINAL, Richmond's industrial newspaper.

### Los Angeles to Put On Great Spectacle Aug. 20

(Los Angeles, Cal., Aug. 11.—

Extensive preparations are being made here for the big pageant and industrial exposition, August 20 to September 9. The entertainment features will be most unusual, it is said; 35 acres being devoted to exhibits and amusements.

One big feature will be the New York Hippodrome shows, the first time they have been brought to the coast. There will be 200 "beautiful" water nymphs in the water carnival. Eight hundred voices will be heard in one chorus.

### Utah Motor Stages to Stop at Crossings

Salt Lake, August 10.—Utah has recently adopted the plan to prevent crossing accidents by passing a law now in effect in many western states that motor vehicles engaged in the transportation of freight and passengers must stop before crossing over railroad tracks in order to be certain that there are no trains approaching. The order was issued by the public utilities commission and will be rigidly enforced.

HEADING HIM OFF

"That was a fine tribute you paid to the flag."

"Thanks," said the orator of the evening. "It was a piece of emergency work."

"Uh."

"I noticed a fellow in a front seat who is always heckling me about the tariff. When he thrust his Adam's apple out of his collar and cleared his throat I knew he was getting ready to say something, so I jumped right on the Star Spangled Banner."—Birmingham Age-Herald.

THE RICHMOND TERMINAL, is the oldest newspaper in Richmond.

### It Wasn't Moonshine

(Albany Argus)

A fire alarm was turned in at Box No. 9 by Mr. Sharp who lives in North Albany on Cornell avenue. Sharp has a sharp eye, but his eyesight was defective this time, for the fire he thought he saw was the sun's glare or reflection upon the windows of the building on the hill near the filtration plant of the East Bay Water Co.

The fire department responded, but turned back when they discovered that it was an imitation blaze, similar to the mirage effect on a desert.

### Old Indian Fighters Hold Anniversary

R. H. White, Albany pioneer, who resides at 724 Kains avenue, had the surprise of a lifetime Sunday when an old Indian fighter named Stewart, with whom White served in the 3d cavalry with General Cook's expedition in 1876 in the Black Hills, North Dakota, and also in Wyoming when the Sioux-Indians were on the war-path, called on him.

It was a great meeting of these two old Indian fighters, who participated in realistic battles in the wild country of that day, when the red man held full sway and proved his fighting ability in the General Custer tragedy.

Dr. Gilkenny, of Berkeley, who had charge of several Indian agencies in the northwest, also participated in some of the thrilling experiences of 1876, when Buffalo Bill, Kit Carson and other noted Indian fighters accompanied the expeditions to suppress the outbreaks of the Indians.

### Dr. Charles S. Brown of Yale at the Old Stand

Oakland, Cal., August 10.—Dr.

Charles S. Brown, Dean of Yale Divinity School, former pastor of the First Congregational Church in this city, from 1896 to 1910, fourteen years, preached at the First church here Sunday night to a record audience. Brown retains his old-time vigor, his rapid-fire delivery "grooving the plate" as he puts over the good advice and philosophy that has made him famous from coast to coast.

Dr. Brown practices "what he preaches." Here is the evidence: To prove his faith and affection for his old church, he has offered to give the last ten thousand dollars to increase the Church Endowment Fund to one hundred thousand dollars.

There are many Browns, and a number of them preachers, but Charles S. is assured a permanent place in the hearts of not only the church people of Oakland, but of those in all the walks of life who have made the acquaintance of this remarkable 100 per cent benefactor.

ENDURANCE

"How did that expert swimmer secure those medals?"

"I don't know," replied Miss Cayenne; "but I suspect it was by her marvelous display of endurance in posing before one camera after another."

TOO BUSY

"That fellow needs a hair cut."

"Certainly does, but he's one of those fellows who can't afford to spend any time in a barber shop."

### Editorial Comments

"Acknowledge the Corn"

I've never gone to church so much I couldn't have gone more. I've never made attendance sure. In all the years before. Sometimes it's easy to stay. Away from church, you know; And so I've stayed at home to rest And there my interest show.

But somehow when I stop to think, It quite appeals to me— If other folks feel just the same; Why I might just as well be To worship God, and help along So my resolve is found At least one service I'll attend When Sunday comes around. —Rx.

"An Ounce of Prevention," Etc.

It is a historic fact that the American people burn up each year property that in value is equal to the cost of carrying on the national government in times of peace. A great national fire prevention exposition is to be held in New York next October for the education of the public in the line of reducing the annual conflagration losses. This is all part of an educational campaign to educate the masses of the people from children to adults to be more careful in handling inflammable matter and setting fires.

Good Roads Are a Big Asset

Good roads are not expensive to motorists—they are an economy. The poor roads are what cost the money. It will pay ten million automobile owners in this country to look beyond their noses—that is, beyond the sophistries of subsidized associations. Every citizen who does not own an automobile is also vitally interested in the road question. Permanent road construction and maintenance will play an important part in future tax bills.

It was in THE TERMINAL.

## Richmond's Vacant Property in Demand

### Fulenwider Is Made Chairman by Big Four

San Francisco, August 11.—The California joint legislative board of the Big Four brotherhoods, which comprise brotherhood of locomotive engineers, order of railway conductors, brotherhood of locomotive firemen and the brotherhood of railroad trainmen, at their three days' session here elected W. C. Fulenwider chairman of the joint board legislative committee. Fulenwider was formerly connected with the Santa Fe, with Richmond as his headquarters. He is a 100 per cent union man, and the rail crafts could have made no better selection.

### Their Lights Shine Too Brightly, Say Speed Regulators

Justice McCansland of San Pablo is doing a rushing business in his court here on the state highway. Traffic officers are fending in the motorists who are violating the state motor vehicle act by not having their headlights properly adjusted.

During the last few days traffic cops have arrested 26 drivers, who were assessed from \$5 to \$10 each.

### AHEAD OF OLD FATHER TIME

But Small Boy Had Quite Definite Idea of Mama Which He Considered Pretty for Girl.

Willie was just four years old and lived in Detroit when mother's dearest friend, also a young married woman, came for a visit.

Willie loved her at first sight and endeavored to speedily make her acquaintance. The following conversation between them took place soon after her arrival:

"Haven't you got any little girls or boys?"

"No, I haven't any little girls or boys," was the sad reply.

"Don't you intend to buy any little girls and boys?" interestedly.

"Yes, I guess some day we'll buy a little girl and a little boy."

"What are you going to name your little girl and boy?"

"Well, the little boy will be Russell, but I don't know what we will call the little girl," the visitor explained.

"I think Caroline is a pretty name for a girl," suggested the little fellow, helpfully.—Detroit Free Press.

### New Building Material May Change Plans of Construction

The new building now being constructed by August Bruns at Third and Macdonald is attracting the attention of a number of persons who are interested in building, and who are contemplating making improvements if the high cost can be reduced.

The side and rear walls of the building are being constructed with Duplex interlocking concrete blocks with an air chamber, which gives an even temperature, is vermin, fire and damp proof, and is said to be 50 per cent cheaper than either brick or wood.

Mr. Doyle, who is supervising the concrete work on the building, says they are constructing a hundred thousand dollar steel reinforced building with the Duplex concrete, and that their buildings constructed fifteen years ago have stood the test of climatic conditions and are as solid and substantial as the day they were built.

### Standard Oil Co. Has Satisfied Employees

The Standard Oil Co. has contented employees, and one seldom hears of this company having any labor troubles. The plan of making their employees "part owners" by deducting a certain per cent of their wages to be invested in stock of the company is proving that the Standard has adopted a novel plan to help solve the "labor problem." When a man is working for himself, he takes a different view, which works out to the mutual benefit of all.

It is said there are nearly 12,000 employees now stockholders, and that the percentage "take-off" in wages, which is converted into stock, works no hardship, and is a savings account with big interest, as it teaches thrift and self-reliance.

### Federal Officers Trap Four at Pinole

Pinole, Cal., August 11.—Federal prohibition officers from the north stopped off here Tuesday and nabbed four violators of the Volstead law. The men arrested were Frank Meagan, Manuel Lewis and Fred Kenney.

OAKLAND | Fourteenth and Clay Streets | OAKLAND |

## Capwells

# More Wool DRESSES

have been added to Fall stocks  
**\$25.00 to \$39.50 and up**

Every day now sees new things added to our stocks and those outfitting for college or late vacations will find pleasure in shopping here.

These new models have full skirts with waists in quaint basque effects, uneven skirt lines that are smart and embroidered and braid trimmings. Straight line models, too, are in evidence and many of these have the bright chain belts that Paris dictates for Fall.

—Second Floor, Capwells

## SQUATTERS ASK TOWNSITE TITLE

On California Land a Half Mile North of Taft

Washington.—The recently organized town of Ford City, located by squatters on land included within Naval Oil Reserve No. 2 in California, may be allowed to stand by the United States Government.

The population of Ford City represents the overflow of population from station 12 of the Naval Oil Reserve, located half a mile north of Taft, and along the main road between Taft and Bakersfield. Several hundred shacks, bungalows and tents have been erected, without government permission, on the land set apart for a Naval Oil Reserve.

If a townsite application is granted by the Secretary of the Interior, the squatters will have to obtain title by purchase of the land they occupy, or move.

Leases allowed under the leasing law do not preclude the consideration of townsite applications, because under section 20 of the leasing act, the right is reserved to the Secretary of the Interior to dispose of the surface within any such lease insofar as it is not needed by the lessee for extracting and removing oil.

The Interior Department has the matter of the new Ford City under consideration now and has already determined that the entire population is made up of trespassers.

The squatters have organized a committee with a view to obtaining a townsite title from the Federal government.

## ADMITS COMPLICITY IN FRESNO MURDER

Slayer of Police Sergeant Captured by City Fireman

Fresno.—Lavarell Clark, captured in a Fresno postroom last week, confessed complicity, according to the police in the slaying of Police Sergeant James Hardenbrook, who was shot to death on a down town Fresno street by three men, alleged to be fugitives from the State Reformatory at Ione. Clark was captured by E. E. Hartman, city fireman, from descriptions furnished by the police and was immediately turned over to Chief of Police Frank P. Trux.

Clark told the police that Frank Stone, one of his companions, fired the shots which killed the police officer. Chester Hoyd and Clark, in company with Stone, another youth released from the reformatory recently, were stopped by Hardenbrook, Clark said.

"Hey, you kids, cut that out!" he said the police officer ordered. Stone then opened fire, according to Clark, firing through the windshield of the automobile. After the officer was killed, the youths jumped into their automobile and drove away, Clark said.

Clark was identified by Leland V. Bunch, a rancher living near Stockton, as the leader of the group that held him up in a lonesome spot on the highway. Bunch is the owner of the automobile in which the three boys are alleged to have waged the gun fight with the officer which resulted in his death. "The little fellow with the freckles," Bunch said, indicating Clark, "held the gun that threatened my wife and me, issued most of the commands and seemed to be the ringleader of the trio of robbers."

## DANVILLE MAN IS KILLED BY A FALL

Martinez.—Andrew J. Abbott, 51, a blacksmith of Danville was instantly killed when the limb from which he was picking figs broke and he fell to the ground, dislocating his neck. A daughter, Miss Leona Abbott, the only person at home, summoned a physician, but the man was beyond help. Abbott has been a resident of Danville for the past twenty-one years. He is survived by a widow, Mrs. Leona Abbott; two daughters, Leona and Lottie Abbott, and a son, Lloyd Abbott, who is a salesman in San Francisco.

## MAN KILLED, SON MAY DIE, IN AUTO MISHAP

San Leandro.—John Chacon (Sr.), who lived at 247 Orchard street, this city, was instantly killed and his son, John Jr., 17 years old, was severely injured, last week, when an automobile in which they were riding was struck by a Western Pacific passenger train at the Williams street crossing. Chacon's body was taken to the morgue and his son was removed to the County Hospital. He is suffering from internal injuries and concussion of the brain. Witnesses to the accident say the two apparently did not notice the approaching train.

San Leandro.—After being driven down the highway by a touring car, the automobile of William McGuire crashed into a telephone pole and narrowly missed killing him and his companion, James L. Gray. Both live in Oakland.

## Marie Prevost

The smiles of Marie Prevost, the handsome "movie" star, are known to patrons of the motion picture houses. She has shown her acting ability in some of the more recent big productions which have been shown. This is one of her latest pictures.

## PACIFIC GAS RATE IS ORDERED CUT

Alameda, Marin, San Mateo, Sonoma, and Other Counties Benefited

San Francisco.—A second reduction within ten days of the gas rates of the Pacific Gas and Electric and Central Counties Gas systems, ranging from 5 to 8 cents a thousand cubic feet, was ordered by the State Railroad Commission last week. The new reduction is the result of a second decline of 25 cents a barrel in the price of oil to these companies.

This reduction of rates of the Pacific Gas and Electric system makes a decline ranging from 15 to 23 cents per thousand cubic feet in a little over a year. Rates for the Central Counties Gas Company have been cut a total of 20 cents per thousand cubic feet.

The new rate applicable to San Francisco, Oakland, Berkeley and Alameda for domestic use is 92 cents per thousand.

The new rates for other parts of the Pacific system are:

Sacramento and Fresno, \$1.14.

Alameda District, including Hayward, San Leandro, Richmond and Redwood District, including Daly City, Burlingame, Hillsborough, Redwood City, San Mateo, South San Francisco, \$1.19.

Vallejo and suburbs, \$1.36.

Marin District, including San Rafael, San Anselmo, Fairfax, Ross, Kentfield, San Quentin, \$1.61.

Chico, Napa and Petaluma District, including Marysville, Napa, Petaluma, Santa Rosa, \$1.59.

Colusa, Nevada and Northern districts, including Oroville, Grass Valley, Nevada, Redding, Red Bluff, Woodland, \$1.62.

San Jose and suburbs, \$1.14.

The new rates for the Pacific System are effective on meter readings of August 25 and for the Central Counties on August 27.

The Central Counties Gas Company operates in Visalia, Exeter, Lindsey, Porterville and Tulare.

## TITLE SOUGHT FOR LASSEN PARK LAND

Susanville.—It has been learned from Washington that the Government will demand a clear title to all of the lands embraced in the Lassen Volcanic National Park before it will undertake any improvement. It is pointed out that there are many private holdings, and it is suggested that these be bought up by the counties interested. Advocates of the improvement fear that the counties will be unable to assume the appropriation, and it is suggested that an appropriation be obtained from the next Legislature.

## Boot Cleaning

The labor of boot cleaning may be greatly reduced by the aid of a little glycerine. First brush the boots free of dust, and then apply a small quantity of glycerine with a rag. Let them stand for ten minutes, then polish with a brush. Boots treated in this way keep their polish for several days, and no blacking is required.

A Difference.—Mrs. Bland: "How good your little boy is, and how an inquiring mood, 'can I ask you one more question, if it isn't foolish?'" "Yes," said his father impatiently, who was trying to read. "Well, if a toad had a tail, pa, would it interfere with his jumpin'?" or would it help him like it does the kangaroo?"

## OPPOSED TO POWER AND WATER ACT

Chambers Fail to Take Vote But Claim Sentiment Is Evident

Chico.—A vote on the water and power act which it was planned to take at the "Hands Across the River Conference" held at the Bidwell grounds last week and attended by representatives of Chambers of Commerce in Butte, Glenn, Tehama, Yuba, Sutter, Yolo and Colusa counties would have disclosed a majority in excess of two to one against the measure. The committee on arrangements, however, suddenly decided not to allow the initiative or the Southern Pacific-Central Pacific divorce problem be discussed.

Such delegates as Assemblyman Van Bernard of Butte City, Postmaster Ed Lewis of Marysville, W. J. O'Connor of Chico, trustee of the California Peach and Fig Growers' Association; President W. J. Sharkey of the Oroville Chamber of Commerce, President Frank Freeman of the Willows Chamber of Commerce, J. L. Mendelhall of Williams, candidate for State Senator and well known farmer, and dozens of others announced their uncompromising opposition to the proposed \$500,000,000 bond issue.

At a vote taken during a combined meeting of the Chico and Williams Chambers of Commerce recently, the opposition to the water and power act was unanimous. This result became public and the committee on arrangements, in the interest of harmony and heeding the pleas of a determined minority, ruled against the water and power act as a topic of discussion.

## OAKLAND CASHIER HELD AS EMBEZZLER

Lloyds' Agent, With Whom Insurance Carried, Swears to Warrant

Oakland.—Jesse Andrade, assistant cashier of the Oakland branch of the Bank of Italy, was arrested last week on a warrant charging him with the embezzlement of \$32,500 from that institution on April 4 last. The warrant, issued by Superior Judge Mortimer Smith of Alameda county, was served upon Andrade in the Oakland city jail, where he has been held without charge while an alleged \$40,000 shortage in his accounts has been under investigation.

Bail in Andrade's case was fixed by Judge Smith at \$50,000. The warrant upon which he was arrested was sworn to by William B. Hayes, manager of Toplis & Harding, San Francisco adjusters, who are the local representatives of Lloyds of London, with which the Bank of Italy is insured against loss by theft.

## PORTUGUESE LODGES TO MEET AT VISALIA

San Leandro.—Judge Frank Mitchell Jr., deputy district attorney under Earl Decoto, will become president of the U. P. L. C. (United Portuguese Lodge of California) upon the convening of the annual session of that body in October. The annual meeting will take place at Visalia October 9 to 13 inclusive.

The choice of president is made automatically, the first vice being advanced. Thus Mitchell will be elected, and his choice is said to be pleasing to the entire body, according to other officials.

The coming convention will be the thirty-sixth annual one. It will be an auspicious one, as about 2000 delegates and their families will go to Visalia. A special train of twelve Pullmans will convey the east bay crowd. The U. P. L. C. band of forty pieces will play. Reports of officers will show great prosperity this year, the treasury containing almost a million dollars in reserve, it is thought.

## BIG LOOT FOUND IN STOCKTON WAREHOUSE

Stockton.—Frederick Runge, in jail at Modesto and accused of wholesale burglaries here, is the most unusual burglar who ever operated in Stockton, the police say. According to local detectives, he placed all his loot in a local storage warehouse where it has just been uncovered and is being listed in hopes of tracing ownership. There were trunks, barrels, suitcases, satchels and boxes full of plunder of every kind from watches and jewelry to suspenders, eye-glasses, dress suits, rugs and vicker baskets. Similar loot found in a Sacramento warehouse is being investigated, as it is believed Runge stored it there. Runge served 40 days in the county jail here for petty larceny last winter.

## MARYSVILLE BEGINS ON PAVING PROGRAM

Marysville.—Work on Marysville big street paving program has been commenced by the Warren Construction Company, which secured the first big contract. Other contracts are soon to be awarded. The work planned will cost more than \$400,000, it is said. Marysville also is repairing the approach to the Feather River bridge, between here and Yuba City, at a cost of more than \$30,000.

## Condensed California News

Modesto.—County Treasurer Ed Whitmore has notified the Board of Supervisors that he has collected interest the sum of \$24,238.57 on county moneys loaned during the fiscal year 1921-1922.

Chico.—Charles P. Billock, 64, died here last week following a paralytic stroke, which resulted when he took a drink of iced water. Billock, who was a carpenter, was climbing a ladder when he was stricken.

Martinez.—Mrs. Mary Conclanelli of Pittsburg, near here, died in a Pittsburg hospital of injuries received last week when an automobile in which she was riding overturned on a road near here. Her daughter, Rose, 17, who was with her, suffered serious injuries.

Petaluma.—Hans Kuk of Chapman lane was fined \$50 last week by Judge Gallagher on pleading guilty to a charge of cruelty to animals. Kuk, in accordance with a promise to the court, will go out of the chicken feed horse business. He was arrested for improperly caring for a band of horses.

Yuba City.—Reclamation district No. 2054 has filed two suits in the Sutter County Superior Court to obtain rights of way for drainage canals along Snake river. Defendants in the suits are Richard Powell and Owen Powell and others. The district embraces land in both Sutter and Butte counties.

Santa Cruz.—Kunijero Inangawa, a Japanese, has been held by Judge H. J. Bias to appear before the Superior Court on a charge of murder, alleged to have been committed June 26 at Watsonville when Inangawa, the police say, killed his wife by cutting her throat and then attempted to kill himself in the same manner.

Tulare.—Miss Frances Baumert of Washington, a graduate of Stanford University, has been employed to fill one of the vacancies at the Tulare Union High School and will be connected with the English department. With the exception of a teacher of music, all vacancies in the high school faculty have been filled.

Grass Valley.—Announcement has been made here by Mrs. E. G. Armstrong, principal of a local business college and wife of E. H. Armstrong, that she will seek the appointment of postmaster of Grass Valley. Armstrong is the retiring district attorney and has long been a recognized leader of the Johnson forces here.

Vallejo.—Joseph Avilla, 60, a veteran rancher of the American Canyon district, was killed when thrown out of a wagon at the old Sanderson ranch, five miles north of town. The body was discovered by some of the farm hands. It is believed that the accident was caused when the team which Avilla was driving became frightened and ran away. He leaves two sons.

Modesto.—Failure of Clarence A. Bradford, who was kidnapped by six men at Riverbank recently, to identify C. P. Engstrom, resulted in the latter's discharge before Justice W. H. Rice at his preliminary examination. Five others, alleged to have taken part in the kidnapping, San Diego Luis, George Smith, Paul Burton, E. J. Nicholson and Fred Hammond, were held to answer to the Superior Court. Bail was fixed at \$1000.

Petaluma.—At a meeting of the Sonoma-Marin bi-counties committee of the American Legion last week, it was decided to organize a chapter of "La Societe de 40 Hommes et 3 Chevaux." The necessary charter members have been secured. Plans are being made for a picnic to be held by the San Francisco, Alameda, Marin and Sonoma county posts some time this month. Earl Carter of Petaluma post is chairman of the committee.

Oroville.—Bids for the construction of the North Fork highway through the Feather River canyon will be called for by the State Highway Commission, according to announcement made by T. E. Stanton, assistant State highway engineer. Proposals will be asked for on a thirty-mile unit between Jarboe pass, southwest of Oroville, and Belden. Working plans for the unit have been completed. The cost will be in excess of \$500,000.

Stockton.—While investigating a complaint of an unsanitary condition at the residence of J. J. Wilson, 124 North Sierra street, Police Commissioner C. C. Smith and City Health Officer Nathan Salant found a still and a quantity of whiskey in the cellar. The odor betrayed the presence of the liquor and a search warrant brought it to light together with two barrels in mesh. Wilson, a plumber, was charged under the city liquor ordinance.

Oakdale.—The proposal to issue \$35,000 bonds for the purpose of constructing and equipping a municipal hospital was voted down last week when the proposition failed to receive the necessary two-thirds vote. The vote was 141 for and 76 against, the small vote being held responsible for the defeat of the enterprise. Under the law the hospital trustees may still go ahead and lease a building and establish a hospital, the people having already voted, 7 to 1, to give them that authority.

Modesto.—A local firm last week shipped the first carload of Elberta peaches out of the San Joaquin valley. It was consigned to Chicago. It consisted of 1140 standard boxes of 20 pounds each.

Petaluma.—Mrs. Sarah Corda, 39, wife of Henry Corda of Vallejo township, died at her home last week after a long illness. She was born at Tomales. She is survived by her husband and two children.

Vallejo.—At a meeting held at Vallejo last week by the Solano county boy scout executive committee, Vernon E. Braemer was selected to fill the position of Solano county scout master. He will report on August 15 from Richmond, where he has been active in Y. M. C. A. and Rotary work.

San Mateo.—John L. McGinn, oil and mine man of this city, was called to Portland, Ore., by the death of his mother, Mrs. Ella McGinn. Mrs. McGinn was prominent in civic affairs in Portland and was well known here through visits to her son, who was at one time Lieutenant Governor of Alaska.

San Mateo.—Plans for an extensive membership campaign were formulated at a meeting of the executive board of the Woman's Club of San Mateo. The drive will take place on August 22, 23 and 24, and will be in charge of a committee headed by Mrs. John L. McGinn, honorary president of the club.

Redwood City.—Attorneys for the Bank of Burlingame have filed suit against L. Cahill and Lee Epperson, Burlingame garage men, to recover \$1342.60, said to be due on a promissory note. Cahill and Epperson have petitioned the Superior Court for the appointment of a trustee for their garage business.

Los Angeles.—Miss Mary Hough, 24 years old, was shot and possibly fatally wounded by two men riding in an automobile at Fifth avenue and Century Club drive last week. Harry Jensen, who lives near the scene and who went to Miss Hough's assistance, when he heard her scream, was shot through the cheek.

Modesto.—A \$20,000 damage suit has been filed in Superior Court by Mrs. Blanche Nagel against the Oakland Union School District trustees in connection with a fatal injury sustained by Geneva Harrison, 13, Mrs. Nagel's daughter, while playing on some of the playground apparatus of the school November 17, 1921.

Sacramento.—Mrs. Jennie H. Roberts and Mrs. Catherine E. Hunter, mother and daughter, appeared as plaintiffs in divorce suits filed last week in the Superior Court. Both plaintiffs are charging their respective husbands with desertion. Mrs. Roberts was married to her present husband in 1915 and her daughter was married in 1919.

Redding.—West Cline of Montgomery Creek and Roger Hazelett of Fall River Mills were arrested in Montgomery Creek for driving their automobiles while intoxicated and were taken before Judge H. B. Ralston. They pleaded guilty and were sent to the county jail for thirty days. Judge Ralston said there would be no fine alternative in such cases.

Sacramento.—Private funeral services were held here last week for Mrs. Fannie M. Willis, former publisher of the Placer Republican at Auburn and prominent club woman of Sacramento. Mrs. Willis was the widow of the late E. B. Willis, who was managing editor of the Record-Union of this city for many years. Later he published the Placer Republican. Upon his death Mrs. Willis became publisher. Mrs. Willis was 60 years old and is survived by a son, Clarence M. Willis.

## SANTA CLARA JESUIT TO OBSERVE JUBILEE

Santa Clara.—At the University of Santa Clara preparations are being made to celebrate the diamond jubilee of Father Aloysius Raggio as a member of the Jesuit order on Sunday, August 27. Father Raggio holds a unique place in the hearts of Santa Clara valley residents for his kindly services, both to the people of the valley and for his work as a chaplain at St. Agnew's, where he has attended the patients for thirty years. One of the features of the jubilee will be the dedication of a gate to the old Mission Santa Clara, an event of interest to those who respect and treasure the traditions of California's missions.

## BURLINGAME REFUSES TO MOVE SOUTH GATE

Redwood City.—The Board of Supervisors has received a communication from the California State Automobile Association asking that action be taken toward having the easterly gate at the southerly limits of Burlingame removed from the paved portion of the highway. The gate which the association asks to have removed has been the cause of many serious accidents and a number of deaths. Officials of Burlingame have refused to remove the gates and point to the fact that nearly every accident has been caused by intoxication.

## STATE AND DISTRICT OFFICE SEEKERS

Names as They Will Appear on Ballot for Primaries

Sacramento.—Secretary of State Frank C. Jordan has made public the names of candidates for State and district offices as they will appear on the ballot at the primary election August 29. The names and offices follow:

U. S. Senator—Hiram W. Johnson, R., San Francisco; Charles C. Moore, R., San Francisco; William J. Pearson, D., Los Angeles; Upton Sinclair, S., Pasadena; H. Clay Needham, P., Newhall.

Governor—Friend W. Richardson, R., Berkeley; William D. Stephens, R., Los Angeles; Mattison B. Jones, P.-D., Glendale; Thomas Lee Woolwine, P.-D., Los Angeles; Alexander Horr, S., San Francisco.

Lieutenant Governor—Joseph A. Rominger, R., Long Beach; C. C. Young, R., Berkeley; William B. Shearer, D., Oakland; Isabel C. King, S., San Francisco.

Secretary of State—Frank C. Jordan, R., Auburn; James P. M. Jensen, P., Oakland.

Controller—Ray L. Riley, R., San Bernardino; Miles Hammond, D., San Francisco.

Treasurer—Walter Brinkop, R., Los Angeles; Charles G. Johnson, R., Alameda; J. T. Millan, R., San Diego; Edward A. Martin, D., Berkeley.

Attorney General—U. S. Webb, R., D., San Francisco.

Surveyor General—W. S. Kingsbury, R., Los Angeles; Curtis B. Locklin, R., Los Angeles.

State Board Equalization, First District—John C. Corbett, R.-D., San Francisco. Second District—John Mitchell, R.-D., Oakland. Third District—Richard E. Collins, R., Redding. Fourth District—H. G. Cattell, R., Pasadena; Sidney S. Gilhuly, R., Glendale.

The non-partisan candidates are: Chief Justice Supreme Court—William P. Lawlor, San Francisco; Curtis D. Wilbur, San Francisco.

Associated Justices, Full Term—Frank H. Kerrigan, San Francisco; Emmett Seawell, Santa Rosa; Charles A. Shurtleff, Menlo Park; William A. Sloane, San Diego.

Associated Justices of Supreme Court, Unexpired Term—William H. Waste, Berkeley.

No nomination paper was filed for the term ending January 3, 1923.

Presiding Justice, First District Court of Appeals, Division No. 1—John P. Tyler, Hayward.

Second District, Division I—Frederick W. Houser, Alhambra; Victor E. Shaw, Los Angeles.

Third District, Unexpired Term—William M. Finch, Willows.

Associated Justice District Court of Appeal, Third District—Albert Glenn Burnett, Santa Rosa.

Superintendent of Public Instruction—Will C. Wood, Alameda.

Representatives—Following are the candidates for Congressmen: First District—Clarence S. Greene, R., Gridley; Euvelle Howard, R., Lakeport; Clarence F. Lea, D.-R., Santa Rosa. Second District—Ivan H. Parker, R.-D., Auburn; John E. Baker, R.-D., Alturas; George W. Root, R., Grass Valley. Third District—C. F. Curry, R., D., Sacramento; Katherine Braddock, D., Stockton. Fourth District—Julius Kahn, R.-D., San Francisco; Hugo Ernst, S., San Francisco. Fifth District—John I. Nolan, R.-D., San Francisco. Sixth District—Harry L. Boyle, R., Oakland; H. C. Cutting, R., San Lorenzo; James H. MacLafferty, R., Oakland; David D. Oliphant Jr., R., Oakland; Hugh W. Brunk, D., Berkeley; Elvina S. Beale, S., Berkeley. Seventh District—Henry E. Barbour, R.-D., Fresno. Eighth District—Arthur Monroe Free, R., San Jose. Ninth District—Walter F. Linberger, R., Long Beach. Jesse R. Oastler, R., Sierra Madre; Charles H. Randall, R., D.-P., Tenth District—Frank A. McDonald, R., Los Angeles; Henry Z. Osborne, R.-D., Los Angeles. Eleventh District—Phil D. Swing, R.-D., El Centro.

## PLACERVILLE HAS NEW WATER SUPPLY

Placerville.—The city of Placerville is now being served with water from the new concrete reservoir under construction for several months. The reservoir is located on Big Cut hill, overlooking the city, and was built by city employees. The concrete walls are four inches in thickness and the floor two inches in thickness. The reservoir has a capacity of 150,000 gallons, and in an emergency can supply pressure to five fire hydrants for two hours.

## STATE MAILING CHECKS TO "VETS"

Sacramento.—The first checks ever paid directly to beneficiaries under the Veterans' Welfare act passed at the last session of the Legislature were mailed out last week from the office here of the State Welfare Board. One batch of checks, aggregating about \$90,000, according to announcement by members of the board, covers tuition, monthly allowances and books and supplies for students enrolled under the Education act. More than seven hundred students are affected, while the sums of the individual checks range from about \$50 to \$150.

## GIRL BURGLARS LOOT BERKELEY HOUSES

Working With Male Accomplice Rob Twenty Apartments

Berkeley.—Two attractive and stylishly dressed young women operating with a male companion are sought by the Berkeley police for a score or more apartment house burglaries committed in the university city during the past three months.

The latest activities of the trio, reported to authorities, include the ransacking of the apartment of Mrs. H. Ramsey in the Alcatraz House, Alcatraz avenue and Adeline street, and also the entering of the home of Mrs. J. M. Martin, 2628 Grant street. In the Ramsey case, more than \$50 in jewelry was obtained, while the loot of jewelry amounted to \$400 in the Martin burglary.

Pass keys are used in the majority of cases by the women burglars in effecting entrance to the homes of their victims. Their male companion is used exclusively as a look-out.

Because of the fact that on several occasions the feminine operators have been surprised in the act of looting apartments, the police have secured detailed descriptions. These were circulated and bent out to every apartment house in the college city by Police Chief August Vollmer.

Apartment managers were requested to keep close vigilance on strangers on their premises and notify the police the instant that suspicion is aroused.

One of the women is described as having dark hair, weight 125 pounds, 5 feet 5 inches tall and usually wears light colored clothes with an orchid hat. She is about 21 years old.

The other fair burglar is about 25 years old, with brown hair, blue eyes and the same build as her confederate. She generally dresses in a blue serge business suit with a dark hat.

The male associate is diminutive of build, weighing 125 pounds, and smooth shaven. He is about 24 years of age.

## OBECHIN JURY AGAIN DISAGREES

Discharged After Being Out for Ninety-Seven Hours

Los Angeles.—The jury in the second trial of Mrs. Madeline Obenchin, for the murder of J. Belton Kennedy, reported to Judge John W. Sherk that it was unable to agree upon a verdict and was discharged. The jury on its final ballot showed a majority for acquittal. One juror later said the vote was 8 to 4, while another gave it as 9 to 1.

The trial was the fourth resulting from the death of Kennedy. The prosecution contended Mrs. Obenchin became angered at Kennedy because he refused to marry her, and conspired with Arthur C. Burch to kill him. On the night of August 5, last, Kennedy and Mrs. Obenchin drove to a cottage owned by Kennedy in Beverly Glen, fifteen miles from Los Angeles, and there Kennedy was shot down from behind, a shotgun being used. The weapon was never found.

Burch left Los Angeles the next day for his home in Evanston, Ill., but was arrested at Las Vegas, Nev., and brought back to Los Angeles. He was twice tried for Kennedy's murder, the juries in each instance disagreeing. A third trial is set for October 9, next.

## COUNCIL DEMANDS \$3 FERRY RATE

Attorney to Apply to R. R. Commission for Reduction

Oakland.—Action was taken by the City Council of Alameda last week to move for the reduction of transbay commutation fares on the Southern Pacific ferry system from the present rate of \$4.80 to \$3.

The council instructed City Attorney William J. Locke to file with the State Railroad Commission an application for the restoration of the pre-war monthly commutation rate of \$3 on the following grounds as set forth: That the increased rate of commutation tickets was a war-time measure and that corresponding decreases have been made by the Southern Pacific Company in the wages of employees.

That the franchise granted the Southern Pacific Company in Alameda contained certain privileges on conditions that commutation fares be kept at \$3.

Stockton.—After a thorough examination of five alienists in an unofficial report declared James Gomez, self-confessed slayer of Deputy Sheriff Frank Brennan in Tracy recently, mentally sound. Examination was made at the State Hospital for the Insane. The authorities believe Gomez, who has made several contradictory statements, is shamming insanity. The examining board stated that Gomez probably had a low degree of intelligence.

**WINCHESTER HOTEL**  
 500 North and Broadway Sts.  
 SAN FRANCISCO  
 600 Beds and Family Rooms. — 50 Bath. — 100 Rooms.

 By F. A. WALKER

# ENCOURAGING WORDS

TO FORM a pleasant background to a pleasing accompaniment to the drudgery of every day life, pass around among the hordes of weary mortals whose backs are bent under heavy loads a few encouraging words and observe, while you are doing it, the happy change that comes over their stolid countenances.

It takes but little kindness and manifestation of interest to brighten dull eyes and move sad faces to a smile.

As the lips curl at the corners, you comprehend with a new understanding the value of cheering words spoken in a kindly voice whose ring is sincere.

Whatever opinion you may entertain as to the influence helpful acts and speech have upon others, you will find upon intimate observation that it is always acceptable, uplifting and productive of friendship.

Encouraging smiles and words are like bright lights on a dark highway, guiding the tired traveler to his destination, who but a little while ago had lost his way and fallen into the "slough of despond."

Reason as you may, the tongue plays the leading role in the great drama of life, permitting itself liberties that make for peace or war and enmity or love, often forgetting in an unguarded moment its great responsibility.

No man or woman who indulges in gross speech can expect to get anything in return except that which arouses resentment.

If you should incline to prove this for yourself, scold your pet dog. If the opposite you would verify, fill your purse tomorrow morning with kind words of encouragement, crisp as new bills, and pass them around as you would your way to business.

Give one to the old newsman on the corner, and see his face light up as the sun of happiness touches his heart and suddenly warms his whole being.

Hand them out all along the way until you are ready to assume your duties of the day.

You may marvel as you begin at the ease and gladness with which you take up your work.

The troublesome perplexities of yesterday have vanished, and there is a goodly spirit hovering over you, whose presence you have not felt for months, and all because you started the day by cheering others and thus unconsciously cheered yourself.

**How Liars Are Made**  
 Some men are born liars, some acquire the habit, but most of them get married and have it thrust upon them. — The Beaver (Albany, Oregon.)

**Put One Over**  
 — Wife — I threw over Tom Smartley for you. He was a clever, sensible fellow.

**Hubby — Why, now I remember, it was Tom who introduced me. He certainly was too clever for me then.** — Boston Transcript.

**HER AILMENTS ALL GONE NOW**  
 Mrs. Sherman Helped by Lydia E. Pinkham's Vegetable Compound

Lake Michigan. — "About a year ago I suffered with irregularities and a weakness and at times was obliged to stay off my feet. I doctored with our family physician and he finally said he could not understand my case, so I decided to try Lydia E. Pinkham's Vegetable Compound. After I had taken the first bottle I could see that I was getting better. I took several bottles of the Vegetable Compound and used Lydia E. Pinkham's Sanative Wash and I am entirely cured of my ailments. You may publish this letter if you wish." — Mrs. MARY SHERMAN, Route 2, Lake, Mich.

There is one fact women should consider and that is this. Women suffer from irregularities and various forms of weakness. They try this and that doctor, as well as different medicines. Finally they take Lydia E. Pinkham's Compound, and Mrs. Sherman's experience is simply another case showing the merit of this well-known medicine.

If your family physician fails to help you and the same old troubles persist, why isn't it reasonable to try Lydia E. Pinkham's Vegetable Compound?

**FAIR STOCK**

# HORSE LIABLE TO SUNSTROKE

When Subjected to Heat or Fast Work Animals Sometimes Lose Consciousness and Fall.

In hot weather and when subjected to heat or fast work in the hot sun, horses sometimes lose consciousness and fall, or as it is commonly expressed, they have sunstroke.

Sunstroke differs from fits in the absence of excitement, the breathing is slow and often of a smothering character, the pulse is slow and indistinct. The harness should be removed and the horse placed in a comfortable position in the shade and propped-up on his bridle. Cold water should be dashed on the head, or cracked ice in a bag be applied to the poll and the head elevated. If the horse is conscious enough to drink, small quantities of cool water should be offered frequently. Four ounces of whiskey may be given, diluted in cold water. The horse should be sponged

One Good Type of Covering to Protect Horses From Torture by Stable Fly.

with cool water and rubbed briskly all over till he is dry and rested. Plenty of fresh air should be allowed, without a draught.

The same treatment is to be given horses that have been overdriven in hot weather and are suffering from heat exhaustion.

# CLEAN BATH BEST FOR HOGS

Animals Will Show Appreciation by Making Profitable Gains if Given Chance.

Given a chance hogs will keep themselves clean. While we have come to associate these animals and muddy wallows, the fact of the matter is that the hogs are usually compelled to live in places where they cannot avoid the mud. If the premises are so arranged that the swine can keep the bodies washed off and at the same time stay out of the mud they will respond in gains as an expression of their appreciation for the opportunity to have regular clean baths.

# SUITABLE FEEDS FOR SWINE

Farmer Who Can Produce Large Crops of Barley, Kaffir or Milo Should Raise Hogs.

Many persons living in a section where good corn crops cannot be raised in an average season hesitate to raise hogs even if they can produce large crops of barley, kaffir, or milo. For all practical purposes these feeds are just as good as corn for growing or fattening hogs, and anyone who can produce these crops can grow hogs.

# PROFIT IN HOME GROWN FEED

Closer Feeder Sticks to His Own Crops Better Showing Will Be Stock Returns.

A good rule for all farmers to follow is to feed what they raise as much as possible. Some purchased feeds will usually be necessary, but the closer the feeder sticks to his own crops, the better showing will be made when he figures up his profits on a bunch of pigs or cattle.

# TO MAKE HOG-RAISING PAY

Sanitation Must Be Provided, Together With Suitable Feed and Pure Water.

Filthy, damp or dusty quarters, for hogs are not disease breeders, but are disease builders. You must provide sanitary quarters, good feed, plenty of pure water, and these with pure bred stock and constant care means a profit at almost any price.

**Value of Protein.**  
 Protein is the nutrient which makes young animals grow, repairs an old animal's body and which largely produces the finger nails or hair in humans, milk, meat, wool and horns in domesticated animals.

**Protecting the Pig Crop.**  
 Give pigs special care after they have received double treatment against cholera. Through lowered resistance at this time they may get sick.

**BOY SCOUTS**

# YOUR SON, A PIONEER

(Conducted by National Council of the Boy Scouts of America.)

Practically every one, even in the thinly settled districts, is familiar with the boy scout movement. Your son probably knows scouts as the fellows who wear a snappy uniform, go on camping trips and have all sorts of hikes, songs and jolly games together. On your part, you may recall how they helped handle the traffic congestion at the last county fair, or how they assisted in fighting that disastrous forest fire.

That boy of yours! He is one of the most valuable assets you possess, isn't he? He looks at you with the clear eyes of youth; but he will soon have developed into sturdy manhood. His hungry young mind reaches out greedily for food. Is it being fed on cheap sensationalism or on glorious ideals? Your boy can feel himself one with the pioneer heroes of his country's history; with Kit Carson blazing a trail through the forest, with Daniel Boone trapping foxes in the wilderness, with Abraham Lincoln, splitting rails. Your boy can become a pioneer scout.

A pioneer scout wears the uniform of the Boy Scouts of America. He studies all the fascinating details of scoutcraft as described in the Boy Scouts' Handbook. He learns the scout salute, the scout sign, the scout oath. He acquires the necessary knowledge, takes the various tests, and wins the promotions, awards and merit badges. How these things appeal to a boy's romantic heart you can appreciate only by looking back into your own childhood. Think how you would have enjoyed being a scout!

Scouting is one of the greatest moral and educational aids to the boy of today. In addition to the scout oath—a simple promise such as your boy gives his mother, that he will do his best to do his duty to God and his country, and to obey the scout law, to help other people at all times, to keep himself physically strong, mentally awake and morally straight—there is the scout law. This embodies 12 simple principles that make for right living and strong character. The educational element of scouting is no less important. The mass of useful information about indoor and outdoor occupations that the boy acquires is surprising. All this he learns by doing—the easiest, most delightful way possible, and yet the most efficient. He follows the scout program as a fascinating game, unaware of the sound principles on which it is based.

If your boy is a clean, alert young fellow, the kind who develops into the red-blooded, vigorous citizen that has made America the power she is today; if you feel that he is missing something of the advantages that boys in larger communities take as a matter of course, and if you want him to develop his reserve powers to the fullest extent, then write to the national headquarters of the Boy Scouts of America, 200 Fifth Avenue, New York City. They will be glad to send you full information about pioneer scouting, and the opportunity that awaits your boy.

# COURT OF HONOR RECORD

The record of the boy scouts in lifesaving is an impressive tribute to the native heroism of the boy and to the training which enables him to make the most of his own powers. Up to 1922 only 12 gold medals, 129 silver and 400 bronze have been awarded to scouts by their national court of honor. A new medal has been designed and henceforth will be the only medal awarded by the scout organization. Hitherto there have been several medals, the best of which involved difficulties of grading which were found too intricate. A new form of application for a lifesaving award has also been adopted. The application blanks place responsibility for the gathering of data upon the local court of honor and require that the service rendered "be not only courageous and efficient, but shall involve actual risk to the rescuer." When a rescue has been accomplished without risk letters of commendation will be awarded. During the last year the old system of graded awards was in effect. Under this system only three gold medals were bestowed.

# MINE RESCUE FOR SCOUTS

To be prepared to render aid in mine accident emergencies, scouts of Butte, Mont., have recently followed a course of instruction given by members of the crew of mine rescue car No. 9 on tour of instruction through the mining district of that state.

# CHICAGO TROOP HONORED

A record of the members of Troop 803, Boy Scouts of America, connected with the Buena Memorial Presbyterian church, Chicago, was placed in the corner stone of the church's new building on June 18 with records of the other organizations connected with the church. At the corner stone laying the scouts had charge of the ceremony, having first led the congregation from the old building to the new for the occasion.

**Horticultural Facts**

# PICK APPLES IN RIGHT WAY

One of the Most Important Operations on Fruit Farm—Plan to Avoid Bruising Fruit.

One of the most important operations performed on the fruit farm is the picking of the fruit, because in many cases the next year's crop of apples depends upon the way the apples are picked. By all means do not allow the apple picker to pick two years' crop of apples during one season, which is often done if the apple picker is not careful in picking the fruit.

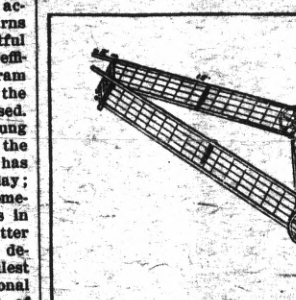

The ladder should never be leaned into a tree, if it is possible to avoid it. Fruit spurs often cover the ground under such conditions, and not only is the crop for the succeeding year damaged, but openings for disease are left in the tree itself. The act of picking is a very simple one if correctly done. A simple twisting movement up and down on the fruit removes it from the spur without loss of stem, and this easy removal is usually a fair indication of the maturity of the fruit. The stem may be broken without hurting the salability of the fruit but should never puncture the skin or be pulled out of its socket.

The receptacle selected for picking should prevent all bruising, as far as possible, and should give ease in handling. Theoretically, it would seem that bags or canvas bottom pails would be the best for picking, but practically such is not the case. There is a bad tendency among pickers to let the fruit fall into the receptacle, and this is one of the many ways by which a great deal of fruit is injured during the picking operation. Bags allow the fruit to be damaged by not protecting it against bruising when coming in contact with the ladder or tree. When bottomless bags are used the pickers will often let the fruit shoot into the barrel with a great deal of force, thus causing a great deal of damage to the fruit.

# PASTURE SHEEP IN ORCHARD

Handy Contrivance Can Be Put Together by Use of Two Old Wheels and Gate Frame.

Recently we made a contrivance for pasturing down an orchard with sheep, writes W. J. Murray in the Farm Journal. You can do the same if you will take a pair of old wagon wheels with iron axle. Cut axle in middle, and bolt each end to a frame of 2x4 inch stuff 10 feet long. To this

Pen for Sheep Pasture.

extended axle bolt two frames of 2x4 material seventeen feet long, one end of each frame fastening just inside each wheel hub, and bring the two long ends almost together.

Make a gate frame from 2x4 inch stuff, as high as the frames, two and one-half feet wide, and inside this frame swing a gate, made of 1x2 inch stuff. The sketch illustrates our plans exactly.

Three sheep can be kept inside the pen, and it is moved about at will. The handles formed by the protruding ends, are narrower than the gate and can be backed up to be housed or taken out. The gate should swing inward. The contrivance can be easily wheeled about by a fourteen-year-old boy, and three sheep can thus be pastured on a comparatively small plot with very little trouble.

# INSTRUMENT MEASURES PEAR

Apparatus Devised at Oregon Station Tells When Fruit Has Reached Maturity.

An instrument has been devised at the Oregon experiment station to indicate just when pears have reached the right stage of maturity for eating, canning or shipping. It consists of an apparatus which measures the pressure required to punch shallow holes one-half inch in diameter in the flesh of the pear. Bartlett pears requiring 35 pounds pressure to make the perforations are ready for picking and for long-distance transportation.

# Make Farm Orchard Pay.

The farm orchard, even if only a very small one, can be made to add a great deal to the comforts of farm life as well as to the income.

# Good Summer Treatment.

A good summer treatment of the young orchard is to plant it to peas in rows.

**Purpose of Sprays.**  
 It is well to remember that the lime-sulphur is applied for fungous diseases and the lead arsenate for insect pests.

**POULTRY**

# COMPARE MERITS OF BREEDS

In Culling Operations in Indiana Standard Bred Hens Show Superiority Over Mongrels.

(Prepared by the United States Department of Agriculture.)  
 In Knox County, Ind., half the number of flocks of hens culled under the supervision of the county agent, were placed cooperatively by the United States Department of Agriculture, the Standard Agricultural college, and the county, were standard bred and the other half mixed breeds, so their comparative merits could be considered through culling.

The 9 standard bred flocks numbered 1,087, while the 9 mixed flocks numbered 1,105, or 16 more hens. The week before culling, the standard bred hens laid 2,906 eggs and the mixed breeds 2,547, or 352 less. In culling, 314 standard bred and 355 mongrel hens were removed from the flocks, leaving 773 standard bred and 750 mongrels, or 23 more standard breeds. Two owners of the standard bred flocks, being breed-

Mixed Flock of Hens.

ers, culled much closer than the owners of the mixed flocks. The week after culling the standard bred hens laid 2,724 and the mongrels 2,433 eggs. The figures show that among the 1,087 standard bred hens there were 11 less culls than among the 1,105 of the mixed flocks, and that they laid 150 more eggs the week before culling and 291 more the week after.

# CONTROL OF CHICKEN PESTS

Application of Blue Ointment Will Prove Efficacious, as Will Sodium Fluoride.

A study of the life of chicken lice shows that there are a dozen different kinds infesting the same bird. Most of them, however, frequent the rear part of the body at least once in every twenty-four hours where they obtain the necessary moisture for their life and growth. This moisture is obtained from around the vent. This habit of lice would answer one method of treatment, the use of blue ointment.

Blue ointment applied around the vent and under the wing of each fowl affected seems to get rid of the lice in a very short time. A piece the size of a good sized pen is plenty for one bird. If the blue ointment is thick and heavy it should be melted so that it can be applied in a very thin layer. It is well to make a second application two weeks after the first, especially if the birds are badly affected.

Any of the advertised lice powders and many of the home-made powders seem to work very well. Good dust wallows handy to the poultry house also aid considerably in controlling this pest.

Sodium florid can also be used to control lice. This is a common preparation which can be obtained at any drug store. It is applied by what is known as the pinch method. A pinch should be worked into the fluff of the tail, a pinch under each wing, a pinch on the back, and a pinch worked into the neck feathers.

**DOULTRY NOTES**  
 Regularity in feeding is one of the secrets of success with fowls.

The fanner the flocks the more valuable and profitable they usually are.

Separate the sexes at eight weeks old, or as soon as sex can be determined.

Move colony house or brooder coop to fresh ground before chicks are turned out.

The incubator is not only a necessity but an economy where early chicks are wanted.

The hen and the caretaker are partners in the poultry business. If either one is lazy the profits are less.

Do not expect to hatch more than 75 per cent of the total eggs incubated, either in machines or under hens.

An incubator often gets lots of blame that should be attached to the operator. When a machine is operated wrong the hatches will go wrong.

**WATER TROUGHS**

# EASY TO BUILD

Good Plan to Select Well Drained Site to Prevent Stock From Making Mud Holes.

# ALSO PACK AND LEVEL LAND

Cement Wash Can Be Applied With Brush or Broom and Makes Smooth Surface and Also Insures Water-Tightness.

(By W. G. Kaiser, Agricultural Engineer.)  
 The construction of a concrete trough like that shown in the drawing, is not a difficult task and any farmer can build it.

A watering trough should be placed on well drained ground, because under the best of conditions the livestock will in-time make mud holes unless a platform is built, or the holes around the trough are filled in as soon as they are made. Sometimes it is advisable to put the trough on a small knoll in order that the water will quickly drain away.

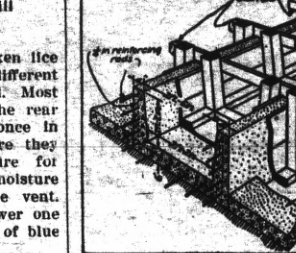

The ground under the trough should not only be drained but also leveled and packed.

# Outside Form of Trough.

The outside forms of the trough are made of one inch boards and 2 by 4 inch pieces as shown in the drawing. After these forms have been securely braced, the concrete can be deposited in the bottom to half the depth of the floor. Reinforcement consisting of 1/4 inch round rods are then placed on the partly constructed floor. These rods are bent in "U" shape so that the ends will project up into the sides and reinforce the walls. All the rods are bent to the proper shape before any concrete work is started, so that they can be quickly put in and the remainder of the concrete floor placed without delay or making any joints.

The inside form which has been made previous to mixing any of the concrete is then quickly lowered in proper place and fastened to the outside forms with clamps as shown in the drawing. Speed is necessary in order that the walls can quickly be placed so there will be a strong bond between walls and floor.

To insure water-tightness, a 1:2:8 mixture of concrete is recommended. This means 1 sack of cement to 2 cubic feet of sand and 8 cubic

When You Get This Tank Finished It Will Last as Long as You'll Probably Ever Need It.

feet of pebbles or crushed rock. The aggregates should be free from sticks, soil or foreign material. Only enough clean water should be used in mixing to make concrete of a jelly-like consistency.

As the concrete is placed it should be spaded next to the forms in order to force the larger rocks back into the mass and let the mortar work out against the forms, resulting in a smooth, dense surface.

As soon as the concrete has hardened sufficiently to be self-sustaining, the inside form is removed and the interior of the trough given a cement wash made by mixing cement and water until it is about as thick as cream. This wash can be put on with an ordinary brush or broom. The wash will make a smooth surface and insure water-tightness.

The inside of the trough is given a slope outward toward the top. This is important because if water freezes in the tank, the pressure will lift the ice and thereby prevent the formation of cracks in the walls.

For a trough of the size shown in the drawing, the following materials will be needed:

**Materials Required for Tank.**  
 Outside dimensions 3 ft. 3 in. by 5 ft. 6 in.  
 Walls 1 1/2 in. thick concrete  
 Floor 1 1/2 in. thick concrete  
 Concrete mixture 1 1/2 cu. yd.  
 Volume of concrete 3 1/2 cu. yd.

**Materials Required.**  
 Portland cement 3 sacks  
 Sand 1 1/2 cu. yd.  
 Pebbles or broken stone 1 cu. yd.  
 1/4-in. round steel rods 2 1/2 ft. (20 lb.)  
 For each additional foot of length add to the foregoing quantities:  
 Portland cement 1 sack  
 Sand 1 cu. ft.  
 Pebbles or broken stone 1 cu. ft.  
 1/4-in. round steel rods 2 ft. (20 lb.)

# MILDEW WIPED OFF LEATHER

Damp Cloth or Soap and Warm Water Will Be Found Satisfactory —Then Oil Lightly.

When mildew has developed on leather goods it should be wiped off with a damp cloth or washed off with soap and warm water, and the leather oiled lightly with castor or neat-foot oil and well dried afterwards. These simple methods for preventing and removing mildew are satisfactory and safe.

**SAN FRANCISCO HOTELS**

# ACME HOTEL

819 Mission Street, Near Fourth Street  
 Opposite "Emporium" Hotel St. Entrance  
 Brick Building, 200 Rooms

 Day Rates, 75c to \$1.00 with Bath  
 Weekly Rates, \$2.50 to \$4.00 to \$10  
 Karyene Public Garage short distance.  
 A Very Nice Furnished Hotel  
 Take any Mission St. car from Ferry, or Fourth St. car from Third St. depot.

# PORTABLE HOUSES ARE BEST

Make it Possible to Keep Young Growing Poultry in Fresh, Uncontaminated Land.

On a recent visit to a large practical poultry farm, it was observed that good use was being made of a number of portable poultry houses. These were of good size and were on runners made of heavy joists. The runners were braced against each other, so that a horse could be hitched to the front and the house hauled anywhere. This made it possible to keep the young growing birds on fresh, uncontaminated sod, which was always sending up a good lot of fresh grass.

When the movable houses were pulled away from each place where they had been for a few weeks, the rains soon washed the droppings into the soil. This nourished the grass and improved the land. In no case was the sod eaten down till the ground was bare.

For small chicks the same plant used small coops on two wheels that could easily be pushed from place to place by hand. In this way they never were troubled with gapes or contaminated soil.

# Cuticura for Sore Hands.

Soak hands on retreating in the hot sud of Cuticura Soap, dry and rub in Cuticura Ointment. Remove surplus ointment with tissue paper. This is only one of the things Cuticura will do if Soap, Ointment and Talcum are used for all toilet purposes.—Adv.

**POULTRY NOTES**  
 Look out for lice when your chickens look droopy and sleepy.

But or sell off all your surplus cockerels before commencing on the pullets.

The very early pullet is apt to molt in the fall and be no more profitable for laying purposes than the hen.

Put the coops for your little chickens as high in the yard as possible. A knoll covered with grass is preferable; then a sudden shower will not drown them.

Where healthy fowls are used for breeding purposes, and they are housed in properly ventilated and arranged houses, and are fed a proper ration for the purpose in mind, disease is practically a total stranger.

**The Irish Touch**  
 Woman—Really, sir, I don't like to deprive you of your comfortable seat.

Fat—Be the powers, ma'am, it were comfortable no longer when I saw ye standin'! —Boston Transcript.

**The Question**  
 "Teacher whipped me because I was the only boy who could answer a question she asked the class," cried Freddy.

Freddy's mother was angry. "I'll see the teacher about that! What was the question she asked you?"

"She wanted to know who put the glue in her ink bottle!"

**An Unavailing Guarantee**  
 "You know those gloves I bought here the other day—you said they'd last me two years."

"Well, madam?"

"I've lost them!" —Boston Transcript.

**Hard Telling**  
 The new servant was as truthful as could be. The first caller asked to see her mistress. "She's not at home," was the answer. "When will she be back?" asked the caller. "I don't know, mum, she's not gone out yet."

**Cuticura Talcum is Fragrant and Very Healthful**  
 Soap 25c, Ointment 25c and 50c, Talcum 25c.

### Elemental Facts That All Should Consider

When a light and power corporation is unfairly treated, it is the people of the community, the voters and their dependents who suffer. It is their savings that are depleted. Over-taxation, confiscation, failure to help public utilities by refusing to permit adequate rates are robbing them. It is the working people who suffer first when there is a lack of service afforded by public utility corporations, because it is they who are chiefly dependent upon such service.

It is important that legislatures and members of public commissions should realize these elemental facts. And they should remember that injustice done or permitted by them is an injustice not to the wealthy, but to their own constituents who put them in office.

**Too Much Indifference**  
One of the greatest dangers lies in the apathy of our American citizens toward public affairs and legislation. Politicians and their henchmen, in and out of public office, are constantly active in evolving schemes for separating the taxpayer from his money, and the rate of increase in the public debts of Oregon and California should prove a warning to all loyal citizens who would attract industry and wealth to these states rather than to make them centers of freak legislation.

The sound sense of the great American public cannot be questioned, but progress must depend to a large degree upon the awakening of public confidence and the giving expression and force to the will of the majority.

It was in THE TERMINAL.

### (1) Stability of Business

This Company supplies indispensable service—electricity, gas, water, steam, and street railway transportation—and its business is, therefore, inherently stable, being given added stability by its diversity. The following statement of consumers shows that in good times or bad, in boom or depression, the Company's growth has never halted nor hesitated.

## The Telephone Instrument

The telephone is a highly sensitive, delicately adjusted instrument. Think of it—without regard to distance, instantaneously reproducing every tone of the human voice.

The quality of its service, in great measure, depends upon careful use.

As with your watch, automobile or piano—the more care, better results.

Among the "out of order" reports received by the company, many result from the carelessness of the subscriber. A telephone may fall from desk or stand, breaking the mouthpiece or throwing the apparatus out of adjustment. The cord may become twisted; meaning a "noisy" line. A damp cloth laid on the cord or the moisture from an open window may cause the "short circuit" and an entire interruption of service.

All of these things are avoidable with the exercise of slight care. In protecting the telephone equipment you are protecting your own service.

The Pacific Telephone  
And Telegraph Company
